PETITION

To Gordon Miles, Chief Operating Officer Canadian Grain Commission, Treasury Board President Reg Alcock, Prime Minister Paul Martin, Minister of Agriculture and Agri-food Andy Mitchell.

As Grain Inspectors for the Canadian Grain Commission, we are vital in maintaining Canada's reputation as one of the highest quality suppliers of grain world wide. We wish to convey to you our disappointment and outrage at the employer's bargaining proposal to eliminate the terminable allowance for the Grain Inspectors in the Pacific Region. This would represent a 10% rollback of money in our pockets and would have a devastating impact not only on our families, but on the communities that we live in. **As a result, we, the undersigned, are actively seeking employment elsewhere.** We ask that, in the interests of Canadians who deserve quality grain products, in the interests of the communities whose economies will be affected, and in the interests of maintaining your highly skilled workforce – that you remove this bargaining proposal from the table and that the terminable allowance be rolled into base salary.
